

Nokta Legend Control-Box / Pod Cover

Brand: Nokta • Category: Accessories & Spare Parts

Overview

The control box (some brands call it the 'pod') is the part of your detector that holds the screen and buttons — where you read your targets and change the settings. This is a slip-on canvas cover for it, with a clear front window so you can still see the screen and press every button while it's fitted. It shields the display and controls from knocks, scratches, dust and sun. This one is made for the Nokta Legend and Legend 2.

Key features

- ✓ A slip-on canvas cover for the control box — the screen-and-buttons part of your detector
- ✓ Clear front window: read the screen and use every button with it on
- ✓ Guards the display and controls from knocks, scratches, dust and sun
- ✓ Made for the Nokta Legend & Legend 2
