

Snake Gaiters (Metal-Free, Pair)

Brand: Deep Lead • Category: Apparel & Field Gear

Overview

Gaiters are protective guards that wrap around your lower legs, from the top of your boot up to just below the knee. This pair is metal-free — every buckle and strap is plastic or nylon — so, unlike ordinary gaiters with metal fittings, they won't set your detector off. Out on the goldfields you're often pushing through scrub and long grass where snakes are about and tend to strike low, so they add a tough, puncture-resistant layer right where you're most exposed. They're adjustable to fit over most boots and come as a pair, left and right.

Key features

- ✓ Tough guards that wrap your lower legs, from boot-top to below the knee
- ✓ Metal-free buckles and straps, so they won't set off your detector
- ✓ Puncture-resistant layer to help protect against low snake strikes in scrub and grass
- ✓ Adjustable to fit over most boots; sold as a pair (left and right)

Specifications

Type	Metal-detecting / gold-prospecting snake gaiters (pair)
Metal-free construction	Yes — all buckles, straps & fasteners are plastic/nylon (no metal to trigger a detector)
Outer material	Puncture-resistant nylon (approx. 900D) over a water-repellent membrane, poly-cotton lining
Coverage / height	Knee-high, approx. 40 cm — boot-top to below the knee
Fastening	Non-metal adjustable hook-and-loop (Velcro) leg straps plus boot/instep strap
Fit / adjustability	Adjustable to fit over most boots; leg circumference approx. 470 mm, knee approx. 490 mm
Sizes	One size, adjustable (fits most)
Weight	Approx. 450 g each / approx. 900 g per pair
Field protection	Resists scrub, spinifex, grass seeds, sticks & scratches; snake-strike resistant (not certified snake-proof)
Water resistance	Water-repellent outer
Colour	Khaki / olive green (typical)
Care	Sponge or wipe clean, air dry; do not machine wash or tumble dry

In the box	One pair (left + right gaiter)
