

Coiltek 10x5" NOX Search Coil

Brand: Coiltek • Category: Accessories & Spare Parts • Part number: C04-0018

Overview

The search coil is the flat disc at the end of your detector that scans the ground and picks up metal. This is a smaller replacement coil — 10 by 5 inches and elliptical — that swaps onto the Minelab Equinox in place of the bigger coil it comes with. A small coil like this reads the ground more precisely, so it's easier to pick a good target out from nearby junk (old nails, bottle caps) and to hear tiny pieces the standard coil sweeps straight past. It fits the Minelab Equinox series (600/700/800/900).

Key features

- ✓ A smaller replacement search coil — the disc that senses metal — for the Minelab Equinox
- ✓ 10 x 5 inch elliptical shape reads the ground precisely in tight, junk-filled spots
- ✓ Separates good targets from nearby trash and finds small pieces the standard coil misses
- ✓ By Coiltek; fits the Minelab Equinox series (600/700/800/900)

Specifications

Coil size	240 x 135 mm (10" x 5")
Coil shape	Elliptical
Coil type	Double-D (DD)
Weight	426 g (15.02 oz), incl. attached skidplate
Technology	Minelab-endorsed; uses the detector's Multi-IQ multi-frequency (Equinox)
Compatible detectors	Minelab Equinox 600/700/800/900
Waterproof rating	Fully submersible to 3 m (Equinox 600/800) / 5 m (Equinox 700/900)
Skidplate	Attached skidplate (included)
Colour	Black
Best for	High-trash, iron-contaminated & confined areas — sharp target separation, sensitivity and precise pinpointing
Warranty	2-year manufacturer warranty
Manufacturer part number	C04-0018
